

HELP FOR PARENTS!

IF PARENTS AREN'T TALKING TO KIDS ABOUT SEX *WHO IS?*

That's a question for every parent to consider. Kids who communicate regularly with their parents about sex are less vulnerable to the lies of pedophiles and teens make healthier decisions. Dr. Rosenzweig offers workshops for parents to help them master the skill of articulating their family's values about sex and communicating them to their child along with accurate information about the human body.

“*Dr. Rosenzweig addresses this delicate, critically important subject in language that is understandable, straightforward and full of sound advice and strategies to educate the adult who in turn can educate their child.*”

Dr. Janet Rosenzweig has traveled the country, working with parents, community leaders and professionals interested in the protecting children from sexual abuse. With credentials and experience as a social worker, public official, sexuality educator and Mom, she wrote [The Sex-Wise Parent](#) to offer a clear, no-nonsense approach to raising sexually safe and healthy children.
